

Operational Standards

OS - 1.5 | Traffic Management Board

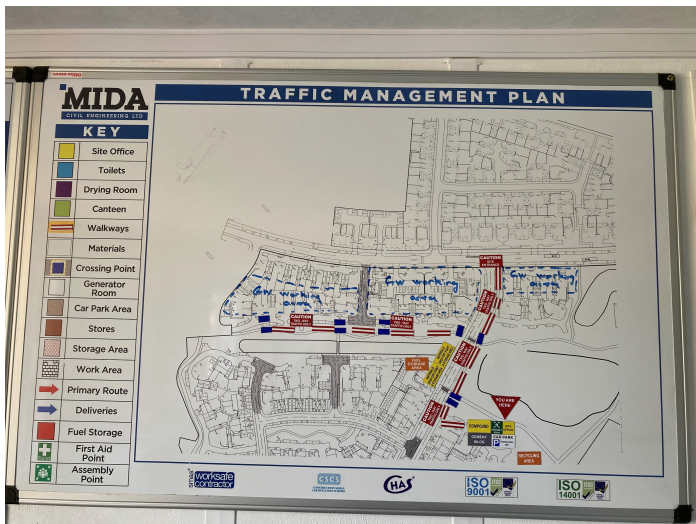

Revision:

B

Section:

1.0 - Site Setup & Housekeeping

Visual Aids

Information

Objective	Application
● To identify safe vehicular & pedestrian routing, access and egress within the site boundary during the construction phase ● To display a map of the site that shows workers/visitors how to make their way safely around site, where facilities are located and the route to assembly points and first aid points in the event of an emergency	● Sites where MIDA are acting as Principal Contractor
Site Setup Instructions	Operational Responsibilities
● Site plan drawing to be obtained at pre-start and sent to the procurement department for a traffic management plan. (TMP) board to be ordered – note a proof of the board should always be obtained prior to going out for print ● TMP board is to be displayed in the MIDA site office and externally in the site briefing area ● TMP Board to be populated with the magnets that mirror where facilities are on site	● TMP board to be reviewed regularly and amended when changes to the site occur ● Priority should be towards maintaining pedestrian and plant segregation through the contract ● All workers/visitors should be briefed around the TMP board at induction or upon any changes to the traffic management arrangements
